

Raw Edge Mosaic Applique

The 2 day workshop is very comprehensive. Lorraine will share all her secrets of turning a design into a Mosaic pattern. She will then take you through the steps to turn the pattern into a Mosaic quilt. This is a fun class, with students completing their design by the second day.

In the 1 day condensed workshop Lorraine will take you through the fundamentals that she covers in the two day workshop. You will start your quilt top, but because it is a one day workshop it is unlikely you will finish the quilt, however you will learn all that is necessary to complete your quilt at home.

Colour values are taught which enables the student to create a pleasing wash of colour in their work. Lorraine will give you tips and techniques that will help you achieve perfect fusible applique and you will also learn how to finish your quilt and the most suitable quilting designs to enhance your work. To ensure all students fully understand the entire process each student will be given a choice of 1 of 2 designs supplied by Lorraine to use in class.

KIT COST AU\$5 payable to the Tutor in class. **Please advise pattern choice when booking**
